

Dear brothers,

I was just considering this great affliction upon the children...and I was talking to William about it when I realized that this great affliction, which primarily is upon the children (both presently, and surely more to follow) came immediately after our intense prayer meeting regarding the burden for the children.

We prayed on 8/8/15, breaking through to the Lord mightily for the children, arguably like never before...and there was exceeding burden for them. The next day, 8/9, Sean preached his ensuing burden on the original sin of the children. And on 8/12, the first outbreaks occurred with Benjamin and Levi. And the others have followed just a few days afterwards, Nahum, Isaiah, David, etc...

I was just marveling and beholding the hand of God, in answer to our prayers, to humble and bring our children low. Both William and I have seen our two sons utterly beside themselves, behaving in a manner we've never seen them, throwing themselves down, etc. But we've also seen them break under this affliction, now as a result, and there is good hope to believe that it could affect them permanently by God's grace!

May the Lord use it to even save some! I just thought I'd mention this, to give glory to God!
Praise God!

Love you dearly brothers,
Your servant in Christ till death,
Jesse
